**RE: Camera on pole cost**

The proposed EPS Video Surveillance System will utilize a digital video recording system providing convenient video management. This system will provide to you a flexible solution with remote access at all times when connected to the internet. EPS is providing peace of mind that should anything happen; you have the capability to identify quickly what you would like to see. Some of the highlights to the digital video system include the following: even tagging for easy retrieval, automatic recording only when security events are detected and automatic alert features.

### Video Surveillance Equipment to be Installed

- 1 DWD Camera 5MP Turret Fixed Lens w/ IR (kit camera)
- 1 DWD Wall Mount for DWC-MT95Wi28T
- 1 Ubiquiti airMAX NanoBeam 5AC (needs Quick-Mount)
- 1 Ubiquiti Quick Mount Kit
- 2 Trendnet 5-Port PoE+ Switch
- 1 Misc Hardware/Consumables

### Video Surveillance System Investment

One Time Installation Charge \$1,477.36 Plus Tax

Tax Exempt (If selected, Plus Tax above is void)

Monthly Services \$0.00

Service Agreement

Inspection

## Installation and Proposal Terms

The installation charges in this proposal all design, wiring, mounting of video equipment, programming, final system testing and user training. If required, additional costs for conduit, wire mold, trenching and man lifts for ceiling heights over 25 feet, will be your responsibility.

The video surveillance equipment listed herein is based on our best estimate of protection required. This proposal includes all design, parts, labor and wire for a complete installation, programming, testing and training of the system. Additional equipment to meet insurance requirements or special high risk needs may be added by the subscriber at additional costs. The service agreement covers repair and replacement of any and all equipment that fault due to normal causes. The service agreement also includes (2) preventative maintenance checks to maintain proper and continuous operation of the equipment. This is also a time when an EPS technician can assist in making adjustments to the system if necessary.

Pricing is valid for a period of 90 days from date of proposal. Sales tax is not included in the pricing and, if applicable, will be added at the time of invoicing.

*EPS recommends that all surveillance systems be inspected regularly; please speak with your Security Consultant for additional information.*

Customer acknowledges and agrees permit fees will be billed direct to customer as a passthrough cost on the final invoice.

## Additional Notes and Exclusions

Installing 6 Cameras 2 replace existing camera,  
one is for the voting box. Installing  
a ubiquiti to shoot from one building to pole to  
watch playground  
Eps to install ubiquiti and program test and  
train.  
Need power ran to power box on pole

**Existing Equipment:** If EPS is connecting to existing equipment, the existing equipment will be tested and inspected by an EPS technician. If equipment is discovered to not be in good working order or is not compatible with the new EPS equipment EPS is installing, it will be the responsibility of the customer for the repair or replacement of the equipment.
